## **The SWISSAUTO 250:**

**Why purchase the SWISSAUTO SA250 engine? There are numerous reasons for buying one, but let's summarise the main advantages:**

1. It's power! 35 Real HP do result in lap times that are quicker than the present KF1 karts!
2. The price! For € 2.930,- + VAT & tax you get a fantastic power plant that isn't much more expensive than its 2-stroke equivalents.(\*)
3. The service intervals! Because this 4-stroke engine is built according to the latest technologies in the automotive industry it doesn't need a rebuild every 10 hours.
4. The continuous engineering progress of the manufacturer in relation to durability and speed based on global race experiences.
5. Its simplicity! No continuous carburettor settings, nor misfires. No promises, but real "Touch **And Go**"

**(\* ) Indicated price, can be slightly different according to the region. RVF reserve the right to alter prices or products offered for sale at any time without notice!**
